As a little girl I was super creative...  
I remember making Dixie Cup & pipe cleaner  
flowers that were just so darn beautiful.

I grew up, got a degree in Psychology, got  
married and worked in business for years.  
Life was a breeze!

Then we adopted 3 kids from foster care in  
2014! The next few years were a blur, helping  
our kids adapt, starting an Etsy store and  
growing my blogs... things I could do in little  
pockets of time.

When they got a little older and more settled, I  
looked around and thought... what do I want to  
do?

Come to find out, I really DO like making art!  
So I spent a year making a magazine collage  
every day on Youtube, doing a Skillshare class  
and selling my art on Etsy.

And then I found out that I might be able to mix my love of art with my love of business and sell  
my designs to be turned into wonderful pieces to share with the world. How cool is that?

If you found something in the pages of this book that makes you happy, please  
reach out and see if we can work together to join my art with your products!  
Email is best, but you can also text me at 727-415-9165 if you like. XOXO Tara
